About Me

Passionate web designing collaborating on creative projects. I am 1st year Government Engineering College Bikaner. With a strong foundation in problem-solving and a collaborative spirit, I am committed to learning and contributing to successful projects in the field of web design.

Projects

Shop Website

- Developed an intuitive and user-friendly e-commerce website aimed at enhancing customer experience and boosting online sales.
- Integrated essential features including a robust contact form, detailed 'About' page, and comprehensive product descriptions to inform and engage users effectively.

GYM Website

- the design and development of a comprehensive GYM website aimed at providing users with essential home workout routines. The website features interactive video tutorials, step-by-step guides, and personalized workout plans.
- Collaborated with fitness experts to curate and validate a diverse range of effective home workout programs.
- Integrated a responsive design to ensure seamless access across various devices, including smartphones, tablets, and desktops.
